

Help validate health care priorities for Northeastern Ontario – North East LHIN Seeks Focus Group Members

Over the past several months, the North East Local Health Integration Network (North East LHIN) has been engaging with Northerners through an [online survey](#), community events and meetings with health system partners. Throughout the engagement efforts, Northerners have shared their thoughts on how to build a strong Northeastern Ontario system of care that is focussed on the needs of people.

The North East LHIN will be holding a series of 11 focus groups across the region to validate draft health care priorities based on feedback received to date. Participants will have the opportunity to provide further input into the North East LHIN's 2019-2022 strategic plan.

Date	Time	City
September 21	9:00am-10:30am	Sault Ste. Marie
